

Self-propelled windrow Turners

MENART SPM series

- > Outstanding capacities
- > Powerful & robust
- > All-terrain manoeuvrability

- > High quality of aeration
- > Extensive choice of models
- > Operator comfort & safety

		SPM-36	SPM-47	SPM-58	SPM-63	SPM-73
Engine Power	hp	145	228	275	350	630
Max windrow width	m (ft)	3,9 (11'9")	4,9 (15'5")	5,9 (19')	6,3 (20'8")	7,3 (23'11")
Tunnel height	m (ft)	1,7 (5'6")	1,9 (6'2")	2,1 (6'10")	2,4 (7'10")	2,8 (9'2")
Max windrow height -tunnel raised	m (ft)	2,1 (6'10")	2,4 (7'10")	2,6 (8'2")	2,9 (9'6")	3,3 (10'9")
Indicative capacity	m ³ /h (yd ³ /h)	2000 (2600)	3000 (4000)	4000 (5000)	5300 (7000)	7000 (9000)

APPLICATIONS

green waste, household waste, polluted soil, biosolids, sugar cane filter cakes, palm oil EFB, animal manure (dairy, poultry...), etc.

Excellent aeration quality

MENART turners have been specially designed to optimize the aeration and mixing process: larger trapezoidal tunnel, powerful rotor drum, no compacting effect, left-right crossing flow.

High productivity

The SPM turners are equipped with powerful track clearers to improve traction grip. And thanks to their large tunnel, they can process huge windrows at a high speed.

All-terrain machines

MENART turners can lift up by 50 cm so you will never get stuck in the windrow. MENART turners are the only ones that can tilt forward or backward for ease and safe movement in slopes. Moreover, the left and the right traction (wheels or tracks) are independent and can adapt to the ground.

Saving space

Thanks to the track clearers, windrows can be brought closer on the site, therefore gaining space. In addition, MENART turners are big but compact and they can spin around at the end of the windrow. Composting plant area is optimized.

Maximum driver comfort

The cabins are the most modern with all-around visibility and pressurized air conditioning. Joystick controls are « at hand » for easy use. A fun and intuitive touch screen allows the operator to have all the machine information at a glance. The engine compartments are soundproofed.

Operators safety

MENART turners are easy and safe to maintain thanks to a large and secure platform. The tunnel is equipped with protection against projectiles: in the front a rubber curtain and at the rear an adjustable metallic deflector.

AVAILABLE ACCESSORIES

Irrigation connections; Automatic irrigation hose roller; Spraying device; Wheels or tracks; Reinforced rotor; Fleece/ tarp roller devices...
